Portfolio: <https://alphaxportfolio.netlify.app>

I am a dedicated software developer with hands-on experience in developing full stack web applications using JavaScript, PHP, Laravel, Vue.js, and MySQL. Skilled in building scalable RESTful APIs, implementing JWT authentication, and managing frontend development with Vue.js and Tailwind CSS I have contributed to projects involving feature-rich websites and applications, where I developed problem-solving and teamwork skills. I am excited to apply my knowledge and grow my expertise in a collaborative and innovative environment.

PROFESSIONAL EXPERIENCE

Dudumizi Technologies – Dar es Salaam.

Web developer (Sept. 2023 - Present)

- Developed and maintained client websites using Laravel and React.js, increasing performance scores.
- Integrated third-party APIs including payment gateways (e.g., Selcom).
- Developed full-stack web applications using Laravel (PHP) and React.js with Inertia.js, implementing clean MVC architecture and reusable components.,
- Designed and normalized relational databases to support complex application features, ensuring data integrity and performance.
- Interacted directly with clients to gather business requirements, translate them into technical specifications, and develop tailored web systems that aligned with their goals — resulting in high client satisfaction and long-term relationships.
- Contributed to planning and executing application deployment strategies for both static and dynamic websites, ensuring minimal downtime and smooth transitions between development and production.
- Provided expert insights into deployment architecture, including server configuration, domain setup, environment separation (staging/production), and database migration.

Dar es Salaam inst. Of technology – Dar es Salaam.

Team Lead & Full stack developer (Jan. 2022 - June 2022)

- Project Leadership: Led a team of developers in designing, developing, and delivering a fully functional prototype of a water quality monitoring system.
- Frontend Development: Designed and implemented the user interface using JavaScript, Tailwind CSS ensuring a responsive and intuitive user experience.
- Backend Development: Developed and integrated backend services, including API endpoints and database management,
- Collaboration: Coordinated with team members to define project requirements, manage development tasks, and troubleshoot issues, fostering effective teamwork and communication.

Dar es salaam inst. Of technology – Dar es salaam.

Mwema advocates – Dar es Salaam.

Full stack developer (Intern) (Aug. 2021 - Nov 2021)

- **Front-End development:** Designed and implemented an intuitive, user-friendly interface.
- **Back-End Development:** Built and integrated a RESTful API to handle application logic data processing, and user authentication.
- **Data Management:** Created efficient database schemas to store and retrieve data in a meaningful manner.

EDUCATION

Bachelor: Computer Engineering.

Dar es Salaam inst. Of technology (DIT) | Dar es Salaam
2020-2023

Ordinary diploma: Computer Engineering.

Dar es Salaam inst. Of technology (DIT) | Dar es Salaam
2017-2020

Advanced Certificate of Secondary Education Examination (ACSEE):

Lulumba high school | Singida
2014-2016

Certificate of Secondary School Education (CSEE):

Ula secondary school | Dodoma
2010-2013

Certificate of Primary School Education (CPSE):

Miningani primary school | Dodoma
2003-2009

SKILLS

- **Languages:** PHP, JavaScript, SQL, HTML/CSS.
 - **Frameworks & Libraries:** Laravel, Slim, Vue.js, React, Tailwind CSS.
 - **Databases:** MySQL, PostgreSQL
 - **Version Control:** Git, GitHub
 - **Containerization:** Docker, Docker Compose.
 - **Other Tools:** REST APIs, JWT Authentication, Unit Testing, Agile Methodology
 - **Time Management:** Skilled at managing multiple tasks and meeting tight deadlines while maintaining attention to detail.
 - **Adaptability:** Quick learner who adapts to new technologies and processes in a fast-paced development environment.
 - **Teamwork:** Strong collaborator who thrives in group settings, actively contributing to achieving shared goals and fostering a positive, productive work environment.
 - **Problem-Solving:** Proven ability to troubleshoot complex technical issues and develop efficient solutions.
 - **Communication:** Strong written and verbal communication skills for effective collaboration with team members and stakeholders.
-

PROJECTS

- **Real estate platform:** Full-stack platform built with Laravel and React for managing property listings, service bookings, and user dashboards. Includes admin approval flows and notifications.
- **Multi-language Company Website:** Developed a fully responsive business website with bilingual (English & Swahili) support, integrated with a CMS for client content updates.
- **Personal Portfolio:** A personal portfolio showcasing selected client and internal projects, built using Vue.js and Tailwind CSS.
